Caller ID Announce

The handset and base audibly announce the name of the incoming caller. No need to find the handset to see who is calling. Makes screening calls that much easier.

Audio Assist®

Temporarily increases overall volume and enhances sound frequencies that make speech easier to understand.

Extra-Large Display for Easy Viewing

Easy-to-read LCD on the handset. High-contrast black text on a white background makes it easy to view incoming Caller ID or review Call History.
